

Hospitality & Tourism

S. No.	Proposed Book Titles
	<i>Call for Chapters/Editors</i>
	Hospitality Management
1	Digital Transformation in Hospitality- Enhancing Efficiency and Personalization
2	Big Data and Analytics in Hospitality- Using Data to Drive Customer Satisfaction
3	Hospitality 4.0- The Impact of Industry 4.0 Technologies on Hotel Management
4	Blockchain for Hospitality- Revolutionizing Payments, Loyalty Programs, and Booking Systems
5	Sustainable Hospitality Management- Integrating Technology for Eco-Friendly Practices
6	The Role of Virtual Reality in Hospitality Marketing- Creating Immersive Experiences
7	AI-Driven Revenue Management in Hospitality- Optimizing Pricing and Occupancy
8	Mobile Technology and the Guest Experience- From Check-In to Checkout
9	Robots and Automation in Hotels- Enhancing Service Efficiency and Reducing Costs
10	Personalized Guest Experiences- Using AI to Tailor Services in the Hospitality Industry
11	Hospitality Marketing in the Digital Age- Using Social Media and Technology to Attract Guests
12	Cloud-Based Solutions in Hospitality- Streamlining Operations and Enhancing Customer Service
13	Cybersecurity in Hospitality- Protecting Guest Data and Securing Digital Operations
14	The Rise of Contactless Technology in Hospitality- Enhancing Safety and Convenience
15	The Role of Augmented Reality in Enhancing the Travel and Hospitality Experience
16	Smart Hospitality Management- Data-Driven Strategies for Improving Service Delivery
17	AI and Machine Learning in Hospitality- Improving Efficiency, Predictive Analytics, and Personalization
18	The Digital Guest Journey- Enhancing Every Touchpoint with Technology
19	Hospitality in the Cloud- How Cloud Technology is Revolutionizing Hotel Management
20	Emerging Trends in Hospitality Technology- From Automation to AI
21	Creating Memorable Experiences- The Role of Technology in Modern Hotel Management
22	Hospitality Management in the Age of Mobile- Strategies for Engaging the Digital Traveler
	Tourism Management
23	Digital Transformation in Tourism Management- Leveraging Technology for Customer Experience
24	AI and Tourism- Enhancing the Traveler Journey with Artificial Intelligence
25	Smart Tourism- How Technology is Shaping the Future of Travel and Hospitality
26	Tourism 4.0- The Role of Big Data, AI, and IoT in Modern Travel
27	Sustainable Tourism Management- Integrating Technology for Eco-Friendly Travel Solutions
28	Mobile Technology in Tourism- Redefining Customer Engagement and Service Delivery
29	The Future of Tourism- How Virtual and Augmented Reality Are Changing the Travel Experience
30	Blockchain in Tourism- Securing Transactions and Improving Trust in the Travel Industry
31	Tourism Analytics- Data-Driven Decisions for Effective Destination Management
32	Personalized Travel- Leveraging AI and Data for Customized Travel Experiences
33	Social Media and Tourism Marketing- Using Digital Platforms to Engage and Attract Tourists
34	Technology and Customer Satisfaction- Enhancing Service Delivery in Tourism and Hospitality
35	Travel Disruption- The Impact of Technology on Traditional Tourism Business Models
36	Smart Destinations- Transforming Cities and Attractions with Technology for Sustainable Growth
37	Tourism and Sustainability- Technological Innovations for Eco-Conscious Travel
38	E-Tourism- Advancements in Digital Platforms and Online Travel Agencies
39	Artificial Intelligence in Hospitality- Improving Efficiency and Service in Tourism Management
40	Tourism Operations in the Digital Age- Managing Technology for Growth and Profitability
41	Robots in Tourism- Automation in Hotels, Airports, and Tourist Attractions
42	The Role of Drones in Tourism- Enhancing Visitor Experiences and Destination Marketing
43	Technology and Crisis Management in Tourism- Adapting to Global Disruptions
44	The Digital Nomad Economy- Managing Remote Work and Travel Trends in Tourism
45	Tourism Innovation- Exploring Emerging Technologies and Their Impact on the Industry
46	Big Data in Tourism- Harnessing Insights for Strategic Decision-Making
47	Tourism and Smart Cities- How Technology is Creating Future-Proof Destinations

	Event Management
48	Digital Tools for Modern Event Planners- From Apps to Analytics
49	The Tech-Savvy Event Manager- Integrating Innovation into Every Event
50	Virtual and Hybrid Events- Technology Solutions for the New Normal
51	Event Technology 360- From Registration to ROI
52	Smart Venues and Connected Events- The IoT Approach
53	Event Management in the Digital Era- Automation, AI, and Data-Driven Decisions
54	The Rise of Virtual Reality in Event Planning- Creating Immersive Experiences
55	Contactless and Cloud-Based Event Solutions- Organizing Safe, Scalable Events
56	Big Data and Event Intelligence- Enhancing Engagement and Performance
57	The Blockchain Advantage- Securing Transactions and Identity in Events
58	Social Media and Live Streaming in Events- Strategies for Digital Impact
59	Green Events with Smart Tech- Sustainable Event Management in the 21st Century
60	Augmented Reality in Event Planning- Elevating Guest Engagement
61	AI Chatbots and Smart Assistants in Event Coordination
62	The Connected Guest- Personalization in Events through Smart Technology
63	Managing Mega Events with Tech- Crowd Control, Safety, and Satisfaction
64	Mobile-First Event Planning- Apps, Tickets, and Real-Time Communication
65	Data-Driven Event Planning- Using Analytics to Measure and Maximize Success
66	Tech Trends in Global Event Management- Innovation for International Audiences
	Culinary Arts
67	The Future of Cooking- Integrating Technology in Culinary Arts
68	Smart Kitchens- How IoT is Transforming the Culinary Experience
69	AI in Culinary Arts- Revolutionizing Cooking and Recipe Development
70	The Role of Robotics in Modern Kitchens- Automating Culinary Precision
71	Sous Vide and Beyond- Advanced Cooking Techniques for the Modern Chef
72	3D Food Printing- The Intersection of Technology and Culinary Creativity
73	Food and Tech- Exploring the Future of Culinary Innovation
74	Culinary Chemistry- How Science and Technology are Shaping the Future of Food
75	Cloud Kitchens- The Rise of Virtual Restaurants in the Digital Age
76	Sustainable Cooking with Technology- How Innovation is Shaping Eco-Friendly Kitchens
77	The Digital Chef- Using Technology for Precise Cooking and Recipe Customization
78	Smart Appliances in the Kitchen- The Future of Cooking with Technology
79	Food Delivery and Tech- The Evolution of the Culinary Supply Chain
80	Augmented Reality in Culinary Arts- Enhancing the Dining Experience with Tech
81	Big Data and the Culinary Arts- Using Analytics for Flavor Development
82	Digital Culinary Education- Using Online Platforms for Cooking Mastery
83	Tech Meets Taste- How Culinary Arts are Being Shaped by Innovation
84	The Impact of Artificial Intelligence on Restaurant Management and Operations
85	Sustainable Food Tech- Innovations for a Greener Kitchen
86	Culinary Arts in the Age of Automation- Tools and Techniques for Efficiency
87	The Role of Virtual Reality in Culinary Training- Immersive Learning for Chefs
88	Futuristic Cooking- Exploring the Role of Robotics and Automation in the Kitchen
89	Tech-Enhanced Dining- How Modern Kitchens are Evolving with New Technology
90	From Farm to Table- The Role of Technology in Sustainable Culinary Practices
91	Gastronomy 4.0- How Digital Innovation is Changing the Culinary World
	Hotel Administration
92	The Digital Hotel- Technology-Driven Innovations in Hospitality Management
93	Smart Hotel Systems- Integrating IoT and Automation in Hotel Administration
94	Tech-Enabled Hospitality- Strategies for the Future of Hotel Management
95	Contactless Hospitality- Managing Hotels in the Post-Pandemic Digital Era
96	Hotel Tech Revolution- Embracing Digital Transformation in the Hospitality Industry
97	AI-Powered Guest Experience- Redefining Luxury and Service in Hotels
98	Hotel Operations 4.0- Automation, Analytics, and Smart Solutions

99	Cybersecurity in Hotel Management- Protecting Data and Guest Privacy
100	The Rise of Mobile Hospitality- Managing Hotels Through Apps and Smart Devices
101	Smart Check-In, Smart Stay- The Digitalization of Hotel Front Office
102	Data-Driven Hospitality- Using Big Data to Personalize Hotel Services
103	Sustainable Hospitality Technology- Eco-Friendly Innovations in Hotels
104	The Role of Robotics in Hotel Administration- Automation Meets Hospitality
105	Digital Marketing for Hotels- Tech Strategies to Attract and Retain Guests
106	Hotel Management in the AI Era- Challenges and Opportunities
107	Cloud Computing in Hotel Administration- Streamlining Operations and Communication
108	Hospitality Analytics- Leveraging Data to Improve Hotel Performance
109	Tech-Driven Crisis Management in Hospitality- From Pandemic to Recovery
110	Virtual and Augmented Reality in Hotel Experiences- Enhancing Guest Engagement
111	The Connected Hotel- Smart Infrastructure for 21st Century Hospitality
	Travel and Tourism Studies
112	The Future of Travel- How Technology is Shaping the Tourism Industry
113	AI and Travel- Personalized Experiences in the Digital Age
114	Smart Tourism- Leveraging Technology for a Seamless Travel Experience
115	Blockchain in Tourism- Securing Travel Transactions and Enhancing Transparency
116	The Impact of Augmented Reality in Tourism- Revolutionizing Destination Experiences
117	Sustainable Tourism in the Digital Era- Balancing Technology with Environmental Impact
118	The Role of Big Data in Shaping Travel Trends and Consumer Behavior
119	Smart Destinations- Integrating IoT to Enhance Travel and Tourism
120	Virtual Reality and Travel- Immersive Experiences for the Modern Traveler
121	Travel Tech Startups- Innovations Disrupting the Tourism Industry
122	The Digital Travel Agency- How AI and Automation are Transforming Booking Systems
123	Mobile Apps and Tourism- Enhancing Traveler Experience with Technology
124	Digital Marketing in Travel and Tourism- Engaging the Modern Consumer
125	Blockchain and the Future of Travel- Revolutionizing Payments, Loyalty, and Security
126	The Evolution of Travel Platforms- The Role of Technology in Shaping the Industry
127	Sustainable Travel and Technology- Harnessing Innovation for Eco-Friendly Tourism
128	Travel in the Age of Artificial Intelligence- Predictive Analytics for the Tourism Industry
129	Post-Pandemic Tourism- How Technology is Transforming the New Normal
130	Big Data and Travel Analytics- Understanding Trends and Improving Customer Experience
131	AI-Powered Personalization in Travel- Creating Tailored Experiences for Every Traveler
132	The Future of Transportation- Emerging Technologies in the Travel and Tourism Sector
133	Tourism 4.0- The Digital Transformation of the Global Travel Industry
134	The Role of Social Media in Modern Tourism- Building Brands and Engaging Travelers
135	Crowd Management and Smart Tourism- Using Technology to Improve Visitor Experience
136	Blockchain for Hospitality- Revolutionizing the Hotel Industry with Technology
